At the Convention of M.D.'s.

In all, 87 resolutions kept the delegates busy, who attended the convention of the Alberta Assoc'n of Municipal Districts in Edmonton last week. Among those was one, which asked for legislation compelling all vehicles including trailers to carry tail lights or reflectors on each side of the rear of the vehicle, indicating its width.

One expressed opposition to any relief scheme which will increase the cost to municipalities.

One resolution asked the Provincial Government to urge the Federal Government to administer the Farmers' Creditors' Arrangement Act so that tax collections by municipalities will not be hindered or prevented.

One resolution urged the adoption of a scheme of crop insurance for this province. The text of this resolution reads: "Whereas the burden of relief is becoming so heavy on municipalities, and Whereas much of this could be prevented by a scheme of insurance against crop losses, be it resolved that this convention favors a scheme of crop insurance in respect to the uncontrollable elements facing the farming industry of this province."

Another resolution asked that the Government amend the Mothers' Allowance Act to give Councils power to administer pensions of widows found to be spending the allowance in such manner that was not the best advantage of their families.

Reinstate a Mortgage.

Mr Bryan was engaged, the fore part of the week, on a Supreme Court case, involving certain property at Lac La Biche. The action was to set aside an encumbrance and reinstate a mortgage. At the conclusion of the case Chief Justice Simmons made an Order setting aside the encumbrance and reinstating the mortgage at a slightly reduced amount. Mr Bryan appeared for the plaintiff; Mr Poirier for defendant.

Funeral of John W. Ibsen.

The funeral took place Thursday Nor. 21 of John W Ibsen, Duffield district, who had passed away in Edmonton on November 18th at the age of 25 years. Interment was made in the Edmonton cemetery. He leaves to mourn his loss his father, Mr C W Ibsen, Duffield; 1 brother, Edward Ibsen, Vancouver; 2 sisters, Mrs Geo Tyrrell and Mrs Andrew Brass, both of Duffield district.

For Sale—Registered Yorkshire Boar, 3 years old, with papers, from good stock. Also grade Short-horn and Holstein Cows, were fresh in Sept. One Polled Angus Bull, 2 years old. Hy Giselaus, Stony Plain. 28 L

Push Sale Of Canadian Wheat

Western Canadian farmer organizations are on the right track in taking steps to launch a well defined and co-ordinated program of publicity with the promotion of greater consumption of high grade wheat in customer countries as its objective.

Within a period of a couple of weeks two of the large farmer marketing organizations throughout the prairie provinces to sponsor a request to the central organization of the Canadian wheat pools, whose plan to place an all-Canadian wheat loaf before the British consumer was endorsed at the annual meeting of the Saskatchewan Wheat Pool delegates and the United Grain Growers Ltd., who, at their annual meeting in Winnipeg sponsored a publicity program for Canadian wheat overseas.

Briefly, the U.G.G. Ltd. propose to interest boards of trade and other organizations throughout the prairie provinces to sponsor a request to the Federal government to set up a special sales promotion body to be known as the Canadian Wheat Institute with offices in consumer countries, the objective being to develop greater consumption of high quality wheat, which, of course, means wheat grown in Canadian fields.

The necessity for stimulating overseas consumers' interest is cited in the following quotation from the directors' report at the annual meeting of the Saskatchewan Wheat Pool: "In spite of the fact that Great Britain remains the best Canadian overseas customer for Canadian wheat, our wheat is invariably used only for blending with other wheats, particularly in the English mills. The British peoples generally are not familiar with the high quality of bread which can be baked from Canadian flour."

In support of the argument that a publicity campaign should be conducted in Great Britain, figures were quoted at the U.G.G. convention to the effect that while world consumption of wheat has dropped 31 per cent. in the past five years, Canadian wheat exports have been lowered by 49 per cent. in the same period.

While this may be true, it does not necessarily mean, however, that Canada is not holding her own in competition with other wheat exporting countries as total exports have dropped faster than total consumption due to the self-sustaining efforts of a number of the former customer countries in Europe. It does demonstrate, on the other hand, a material reduction of consumption of wheat, during the period under review.

Unfortunately, there is evidence that there is actually a reduction of consumption of wheat in Great Britain, Canada's best customer for high grade wheat. Representatives of the Scottish Co-operative Wholesale Society, while in Western Canada this summer, testified that while the Scotchman insists upon bread made of wheat of high protein content, as a result of which bread sold by the Co-operative's affiliates and subsidiaries contains 93 per cent. Canadian wheat, he is also eating less bread than formerly and, incredibly though it may sound, is consuming less porridge. The Canadian is substituting more expensive fruit, bacon and eggs and other commodities, for a percentage of his erstwhile substantial diet of bread and oatmeal.

There are indications that a similar situation exists in England, where the popular taste is for a lower grade loaf than the Scotchman demands, for within the past year the British millers have found it advisable to institute a five-year advertising program at considerable expense in an effort to persuade the population south of the Tweed and the Cheviots that they should eat more bread.

With many of the former markets virtually closed to Canadian wheat and the British market showing a tendency to shrink, due to changing dietetic tastes, or whatever the cause may be, the outlook is not reassuring to the Western Canadian farmer.

The farmer organizations are becoming alive to the need for taking some steps to deal with these conditions and it is to be hoped that some effective program can be devised with all interests working together to a common aim.

In some quarters it is suggested that this is an opportunity for the Canadian Wheat Board to take the initiative in co-operation with the Department of Trade and Commerce. It is pointed out that the Wheat Board, under the Canada Wheat Board Act, is vested with wide enough powers in section 8, sub-section B, which gives the board authority "to sell and dispose of, from time to time, all wheat which the board may acquire for such price as it may consider reasonable with the object of promoting the sale and use of Canadian wheat in the world markets."

Some recent experiments in the home market show that the public will respond to a loaf made more attractive by flavoring or other devices and it is possible that similar efforts to woo the British consumer would pay dividends. At any rate it is worth a trial.

Canada's Chief Loss

In the event of Italy retaliating by refusing to buy from Canada the chief loss would be in wheat, according to the exports for the last fiscal year when wheat to the value of \$1,066,624 was shipped to that country.

Language Dying Out

Manxmen are ceasing to talk Manx in spite of the efforts of enthusiasts to keep the language alive. There was not a single aspirant this year for a prize for the best scholar in the Manx language offered at King William's College in the Isle of Man.

Terminates Annual Gifts

Rockefeller Believes Sectionalism In Church Is Wrong
Foremaking the traditional practice of his father, John D. Rockefeller, Jr., has terminated his annual monetary gifts to the Northern Baptist Church in the belief that inter-denominationalism is the best servitor of Christian religion.

In a searching letter to the Northern Baptist convention, written March 7 last, but revealed only recently, the son of the founder of one of the world's greatest fortunes informed the church that henceforth any future gifts would be only to specific agencies of the church.

"I have long felt," he wrote, "that this denominational emphasis is a divisive force in the progress of organized Christian work and an obstacle to the development of the spirit and life of Christ among men." To hold young people, Rockefeller said, who are largely unconcerned with denominational distinctions, the church must work with them "in relegating the non-essentials to a place of secondary importance and stand with them for the fundamentals of Christian duty."

Rockefeller, the largest individual donor to the church, has in the past made annual donations ranging from \$250,000 to \$1,000,000 to the general budget of the Northern Baptist convention.

Made Noise Like 'Plane

Swarming Wasps Routed Pack Trains In B.C. This Year

Wasps were numerous throughout British Columbia this year. Hundreds of nests honeycombed the rocky ground of the Cariboo district and on Vancouver Island.

"You could stand still anywhere in the woods, listen quietly, and hear a humming like a flock of distant airplanes," a logger in the Courtenay district of Vancouver Island reported.

He told of finding an area where a bear had demolished a dozen nests in the space of a quarter of a mile, feeding on the young wasps it found.

Many nests were situated on the Forbidden Plateau and pack trains were often attacked by the stingers. Horses rear and plunge as the swarms sail in to the attack. The stings remain with the horses only a few minutes, however, and they are soon quietened.

Unique Picture Gallery

Has Been Hobby Of Hotelkeeper For 35 Years

Trail, a little mining town in British Columbia, boasts a unique picture gallery. It is owned by Pete Levesque, a hotelkeeper, who has made it his hobby for 35 years, and it covers every inch of wall space in his lobby.

The gallery includes a photograph of every prominent man or woman who has visited Trail since 1890, and many of the photographs are autographed. All carry a short biography of the subject in Mr. Levesque's spidery writing, each ending with the word "died," followed by a blank space to be filled in when the time comes. Some of the subjects have thought this meticulous attention to detail a trifle premature.

ARE YOU WEAK?

Mr. W. Bowman, 10 Windsor Ave., Quebec, Ont., said: "I had lost weight through poor appetite, I had backache and headaches and felt miserable. I took Dr. Pierce's Golden Medical Discovery and was soon enjoying splendid health."

All druggists. New size, tablets 50 cts. Liquid 50 cts. Large size, table or liquid, \$1.25. Write Dr. Pierce's Clinic, Buffalo, N. Y., for free medical advice.

Java Has No Poor

Native Diet Is Frugal And Everyone

Speaking of the world tour of Lord Baden-Powell and herself which recently concluded with their visit to Canada, Lady Baden-Powell mentioned their stay in Java, and added: "I might say there isn't a poor person in all of Java. Of course the native diet is frugal—a handful of rice and a couple of bananas is sufficient each day. But we could learn a lot from the attitude of these Eastern people. Their kindness, their friendly spirit and their goodness shine from their eyes."

Poultry Congress In Leipzig

Exhibit Building In Berlin Was Destroyed By Fire

Owing to a serious conflagration in the city of Berlin, Germany, the large building in which the live bird exhibit of the Sixth World's Poultry Congress was to have been held in 1936 was destroyed by fire. As there was no other hall in Berlin large enough for the purpose, the Congress authorities decided to hold the Congress in Leipzig. According to official information, this arrangement will give better accommodation than was possible in Berlin, while at the same time the delegates will have every opportunity of seeing the sights in and around Berlin itself on the occasion of a pre-arranged visit. Provision is also being made for the delegates to visit the Olympic Games, which will be held on the outskirts of Berlin. A Canadian tour is being arranged, and already there have been some definite bookings and a large number of applications for information.

Propane Gas Has Many Uses

Can Cool A Refrigerator Or Run A Motor

One of the products of oil and gas wells is a condensable gas, propane. Under compression it is a liquid, but released to atmospheric pressure it becomes a gas. When it changes from a liquid to a gas it has properties similar to dry ice, solid carbon dioxide. It has frequently been suggested that propane could be used for a dual purpose with completely opposite effects. It could first be evaporated from the liquid state through coils of pipe to cool a refrigerator and the vapor could then be run to a gas stove, where it could be burned as fuel. A parallel application applied to motor trucks transporting perishable foods is described in "Food Industries." The propane is first used for refrigerating the body of the truck and is then used as fuel for the motor instead of gasoline.

Told Astonishing Story

Fishermen On Caspian Sea Marooned For Five Days

Thousands of Caspian fishermen told an astonishing story of having been marooned on the bottom of the sea for five days, dispatches to Moscow stated.

Their report was that at the busiest period of the fishing season the sea itself retired from under the fleet.

It receded along 150 miles of the northern shore line of the Caspian Sea, leaving the ships high and dry several kilometres from solid earth.

Airplanes dropped food to the marooned men until the tide flowed back and allowed them to refloat their ships.

Took Name From Islands

The Canary Islands were called "Canaria" by Pliny, because of the multitudes of dogs of great size found there. The domesticated Canaries took its name from the island, and not the islands from the bird.

The large, white, funnel-shaped "blossoms" of the calla lily are not the true flowers at all, but outer leaves. The real flowers are tiny, inconspicuous things, crowded together on the club-like spadix in the centre.

Some people are noted for their ability to recollect things that never happened.

The poisonous toadstool and the edible mushroom are of the same family.

Don't "Chisel" Yourself

Don't "chisel" yourself, when for so little you can get the best. You have always enjoyed Ogden's and now that times are better, you get back to Ogden's and pleasure.

And don't forget to roll it with the best papers "Chanticleer" or "Vogue".

Unique Design For Windows

South Africa's New Post Office Using Replicas Of Stamps

South Africa's new post office which is now under construction is to have stained glass windows in the form of enlarged replicas of the Union's halfpenny, penny, twopenny and fourpenny postage stamps. Interwoven with the stamp designs are representations of a streamlined train, aeroplane, a motor ship, and a radio station emitting sparks. A pair of symbolic poles help to balance the design which are supported by medallions, sketches of mail coaches and other old methods of postal transport.—L. A. Barnes.

To Learn English

In the last two years nearly 4,000 foreign girls have gone to England to become domestic servants, most of them being well educated and of good family, but adopted this means of improving their knowledge of English.

Don't forget that you are a part of all of the people who can be fooled some of the time.

VICKS V-A-T-R-O-NOL

Geological Surveys And Investigation Program Have Brought Results

Hitherto unclassified regions believed favorable for gold production in the west and copper-nickel mineralization and natural gas potential areas in the east have been disclosed this year by the federal \$1,000,000 geological surveys and investigation program, Dr. Charles Cammell said at Vancouver.

Although the geologic parties have not yet had time to compile their complete reports, the program has been successful in classifying these unknown districts, the deputy minister of mines told delegates to the western meeting of the Canadian Institute of Mining and Metallurgy.

The program, which got under way last June, embodied 65 projects spread over the Yukon, Northwest Territories and every Canadian province with the exception of Prince Edward Island. Close to 1,000 persons were employed in the 188 field parties which engaged on the geological and topographical surveys.

The reconnaissance of the Yellow Knife river district in the Northwest Territories disclosed approximately 2,900 square miles, or 10 per cent. of the area, could be classified as gold prospecting territory, the deputy minister said.

Another project indicated some 300 square miles in Manitoba could be considered favorable for gold occurrences, and some unprospected areas with similar possibilities were found in Saskatchewan.

The party working in the Cranbrook area of British Columbia found that tests should be made of certain tertiary gold-bearing gravels which have been given scant consideration, Dr. Cammell said, while examination of mining properties in the vicinity of the main line of the Canadian National Railways in the coast province has directed attention to the economic possibilities of the region.

In the east perhaps the finding of copper-nickel mineralization of the Sudbury type in sporadic occurrences over a distance of 14 miles in the southwest of Fort William-Fort Arthur can be considered as one of the most interesting attainments. In addition, the same project disclosed some 300 square miles favorable to the occurrence of silver.

Surveys in the natural gas-petroleum region of southwestern Ontario indicated additional favorable areas in which to drill for gas, the minister stated.

Solution of the scarcity of water for domestic and agricultural use in the southern prairie region of western Canada may hinge upon sources of artesian and ground water, Dr. Charles Cammell stated. The prairie water problem was one of the largest individual undertakings under the \$1,000,000 federal geological and topographical survey recently completed.

Nothing would be known, Dr. Cammell said, until the various parties had completed their reports.

The Value Of Experience

Lessons We Learn Can Never Be Set Aside

One thing must not be forgotten in the writer of new creeds and shifting moral ideals that characterize modern thought. That is that the lessons of experience cannot be set aside. The ideals that have emerged through centuries of human struggle are as fixed for our practical guidance as the stars by which we determine our course for the future. The deep faith in which generations of thoughtful men have found strength and assurance are valid still. Life, after all, is simple, if we live it simply. All that is required of any man is that he be true to himself, loyal to his obligations, great hearted and kind to his relations with neighbors. —Minnepolis Journal.

Mount Mansara was named years after it disappeared into the earth. Crater Lake, Oregon, rose where once lay this mighty mountain peak.

Take on live eight months with out water and three years without food, scientists report.

Canadian Cattle At Glasgow

High-Grade Shipments Brought Satisfaction Prices At Sale

There was plenty of evidence that Canadian cattle are popular in Scotland at a special sale conducted recently by Wm. Bosworth and Sons, at Merchants Wharf, Glasgow, to dispose of a shipment of Canadian beef and dairy cattle. Bids came freely, and all the animals were disposed of at satisfactory prices.

The auctioneers stated that the dairy cows were the first lot offered for sale of a shipment of Canadian beef and dairy cattle. In order to ensure that only the very best class of Canadian cows would be exported the Canadian Government had imposed strict regulations providing that all cows for export to the British market must pass an official tuberculin and blood test prior to shipment. Any cows failing to pass such test will not be allowed to leave the Dominion. Further action by the Canadian government provided for skilled supervision of all export shipments as to class, breed, type, and conformation of the animals to ensure that only high-class stock went to the British market.

As the Canadian government had full control over the export of cows and could withdraw or cancel any export license they were in a position to see that the trade was worked on a highly satisfactory basis. These actions by the Canadian government would assist all Canadian milk cows exported to Britain conform to a degree of official testing, examination, and supervision which was higher and stricter than that applied to any other cows for commercial dairy purposes offered in any market.

New Kind Of Flower

Specimen In Blackpool Tower Aquarium Lives On Fish

The latest additions to the Blackpool Tower Aquarium are flowers that live on fish. They are placed in a tidal pool connected to the sea by pipes, and when the victims sail to open their white petals and wrapping themselves around the fish, suck them in. Most people have heard of flowers that close immediately when touched, but these "fish-eating" flowers, and in the tropics there are larger specimens which ensnare small birds and mice. Scientists say that they extract the blood from the small animals and birds and eject the carcasses. One, a Javanese flower, lures mice into its mouth and drowns them in fluid. Another kills dogs and even goats with its poisonous fumes.

British chemists find that gases used to preserve fruit in storage can be used for meats, notably in shipment of meat from Australia to England.

Dish Towels Needn't Be Dull

The bride-to-be of her new home—that friend who's collecting those for her hope-chest—your mother or mother-in-law, both of whom like a bright, cheerful kitchen—these are just a few of the many on your gift list who would love one or a set of these gay cross-stitched towels. You will enjoy working with such attractive designs, too, and find that the light-to-the-inch rooms are quickly done.

In pattern 5187 you will find a transfer pattern of six motifs averaging 4 1/2 x 9 inches; material requirements; color suggestions; illustrations of all stitches used.

To obtain this pattern send 20 cents in stamps or note (cash preferred) to: Needle Arts Dept., Whittington Newspaper Union, 176 McDermott Ave., St. Paul, Minn.

There is no Alice Brooks pattern book published.

Australia Is Said To Be The Third Best Customer Of Canada

Germans Like Canadian Eels

Hundreds Of Tons Taken From St. Lawrence River Every Year

Canadian eels, yards and yards of them, sales of them, so many in fact that it placed end to end they would turn a Hollywood statistician green with envy, left Montreal in the Canadian Pacific fast cargo liner Beaverford, in about two weeks, cut up into millions of small pieces, they were melting in the mouths of German gourmets.

Hundreds of tons of eels taken from the mud in the St. Lawrence of the Isle of Orleans near Quebec, are shipped to Germany each year. The business reaches a peak at this season and this shipment on the Beaverford was a record one as actually one hundred tons weight of barreled eels left in the Hamburg-bound liner.

Hardly individuals, it is claimed that the eels though frozen are still alive in the barrels, but do not show signs of life. It might be said that they are hibernating. Aboard ship they are placed in refrigerator space having a temperature of 20 below zero, which probably induces a chronic state of hibernation. The Canadian eels formed part of a cargo of over 6,000 tons weight the Beaverford took to London and Hamburg.

Integrated Noise Meter

Instrument Registers Amount Of Noise Person Has Been Subjected To

An integrated noise meter designed by Dr. F. H. Haynes of the Virginia Polytechnic Institute, is described by him in the current issue of "The Review of Scientific Instruments." This meter will measure and record the total amount of noise a person has been subjected to in any given length of time, just as the gas meter tells how much gas has been consumed. It operates very much like an ordinary watt-hour electric meter. A microphone picks up the noise and transforms it to an electric current of proportionate intensity. This controls the grid bias on an amplifying tube and lets varying amounts of "plate current" flow through a watt meter which continuously adds up the varying amount of current which corresponds to the noise picked up by the microphone. The noise unit is the "decibel."

She—Some people don't know what's good for them in this world. He—And some people do know, but haven't the price to get it.

"Australia is now Canada's third best world market, ranking immediately after the United Kingdom and the United States. The trade balance between the two Dominions is three to one in Canada's favor," said L. R. Macgregor, Toronto, Australian trade commissioner to Canada.

During the last Canadian fiscal year ended March 31, Australia's purchases from Canada included 204 million feet of lumber; 12 million pounds of canned salmon; 100,000 pounds of newspaper and 18,100 automobiles, Mr. Macgregor pointed out. At the same time, Canada bought from Australia, 16,000 tons of wheat and cereals; 100,000 cases of canned fruit; 71,600 gallons of wine; 4,000,000 pounds of wool and 300,000 tons of raw sugar.

The active trade balance for Canada was attributable to the trade agreements made with the two countries which were an extension of the trade agreements negotiated in 1915 by Hon. Mr. Robt. B. Reid.

Australia was coming out of the depression fast, Mr. Macgregor said. Unemployment among trade unionists which fell to 50 per cent. in 1932 had now risen to 17 per cent.; exports rose from \$85,000,000 in 1931 to \$99,000,000 in 1934, higher than any year since 1929-30. Practically all business activities were showing improvement.

"Since 1932 any fear that government finances would be allowed to drift has been dispelled by the premier's plan which was carried out in all provinces. Moreover the control of the London-Australia exchange rate by the Commonwealth bank has meant three and a half years of absolute stability despite the vagaries of sterling."

"In June, 1935, there was an increase in deposits in Australian savings banks of \$28,000,000 over the same date of the previous year. Deposits now total over a billion dollars and the present level has been exceeded only twice in the history of savings banks in Australia, 1928 and '29."

Unemployed Grow Jobs

Raise In Ku Bells Which Are Highly Priced By Orientals

Unemployed in Port Credit, Ont., have started a new industry.

In place of bawling competition from Oriental goods made with cheap Chinese labor, they have turned the tables. What is more, they are making a handsome profit doing it.

It all started some 25 years ago, when a number of Chinese started raising Ku bells on the prairie that border the bank of the Credit. For some time they flourished and sold their product, a bulb much prized by their countrymen as a vegetable. For some reason the venture was abandoned and nothing more was heard of it until recently when an unassuming hero re-discovered the bulb, still growing profusely. Several unemployed were quick on the pick-up, found they could be sold in quantities to Toronto Orientals and so the industry began.

Village authorities are backing the men in their venture and have placed a ban on Orientals, who might wish to revive the business on their own account. The unemployed, so say the village fathers, shall have undisturbed claim to the Ku bell and the profits derived therefrom.

Elderly Information Man

Old-Timer Gives Offhand Historical Dates And Most Local Statistics

"Uncle Joe" Uloth, 62 years a resident of Onondago county, N.Y., is the oldest man in the village of "Who's Who." He knows all the old-timers for miles around by their first names, knowing their children and their grandchildren. He can give offhand birthdays, historical dates, dry and wet years and most local statistics.

None of this information is kept anywhere but in "Uncle Joe's" head. He says he doesn't "think it worth the work." And speaking of work, this year he planted and looked after more than five hundred of potatoes and would have cared of more.

The Queen Mary, giant new British liner, will begin her maiden voyage from the Clyde to Southampton on March 23.

King Ibn Saud and his government were determined Arabia should observe strict neutrality in the Italo-Ethiopian war. The country has refused to export camels and sheep to Italy despite the high prices offered.

The Nobel committee decided that no Peace prize should be awarded for 1935. This year United States Secretary of State Cordell Hull was widely mentioned for the prize, as was Emperor Haile Selassie of Ethiopia.

A dust storm—bugaboo last spring of the southwestern grain lands—was reported recently at Liberal and Elkhart in southwest Kansas and in parts of the Oklahoma and Texas Panhandles. Dust clouds floated high over Dodge City.

Depression has brought at least one benefit, a remarkable growth of literature, believes Dr. G. H. Schofield, New Zealand parliamentary librarian. He said in Winnipeg it had been one of the greatest blessings of the past few years.

Lieut.-Col. R. J. Birdwhistle, secretary of the Dominion of Canada Rifle Association, announced Baron Tweedsmuir had accepted the office of patron of the association during his term of office as governor-general.

Dr. Hermann Gorts, a German, was arrested at Hawrick, England, authorities announced, charged under the Official Secrets Act. The Official Secrets Act is applied in cases where a leakage of secret information is suspected.

Old Spinning Wheel

In Perfect Condition Still Turns Out Good Homespun Cloth

In perfect condition and still able to turn out as good a quality of homespun cloth as the day it was built a spinning wheel more than 100 years old is in the possession of Mrs. Joseph Poirier of Sydney, N.B.

Of small design the wheel carries the Scotch manufacturer's name as "Alex Macintosh, built in 1818." Mrs. Poirier has used it continuously for 29 years. Previous to her ownership it was used by her aunt, Miss Catherine McPhee at Grand Mira, who used it from 1875 to 1910. The wheel is stated to be good and light as well as strong and fast and the present owner could not be induced to part with it any price.

A few drops of kerosene added to water makes an excellent wash for windows, mirrors and picture glass.

City Built in Three Months

Turkish Dictator Wants His People To Lead Outdoor Lives

"Build a city by the sea, near Istanbul, where the masses may go and enjoy themselves. It must be finished within three months. It must have a hotel, a casino, a bathing beach. It must have all other attractions of a first-class watering place. It must be a national playground for the people."

Turkey's dictator, Kamel Ataturk, formerly Mustafa Kemal, gave these orders to the mayor of Istanbul. The mayor put 8,000 men on the job. Within three months to a day the seaside city sprang up.

The place is called Florya. It is on the European side of the Sea of Marmara, about 30 miles from Istanbul. It is the Turkish version of Monte Carlo, minus the gambling.

The first one to plunge into the sea at the resort was Kemal, as an example. He wants to free the people from centuries of traditions, from latticed windows and harems. He wants them to lead outdoor lives, like Americans and Europeans.

Londoners Had Thrill

Subway Housed Live Cows Used In Milk Campaign

A living cow café in an underground station is a new thing even in the metropolis of London where anything may happen without causing undue excitement. People arriving at Charing Cross subway station recently received a thrill when they came face to face with two Jersey cows. It was no optical illusion. The cows were there, beyond a doubt, stabled in the entrance hall as snugly as if they were in the country.

The cows were "put up" for a season of three weeks, to act as living caterpillars for the milk marketing boards "drink more milk" campaign. Their milk, cooled and tested, was being sold by four neat and attractive milkmaids, either flavored or in its natural state.

Divinity Fudge

No Trouble To Make It This Easy Way

3½ cups granulated sugar
½ cup "Crown Brand" Corn Syrup
¾ cups water
¼ teaspoon salt
2 egg whites
1½ cups chopped walnuts
1 teaspoon vanilla.

Method: Cook the sugar, "Crown Brand" Corn Syrup, water and salt to soft ball stage (238 F. degrees). Take out ¼ cup of this syrup and cook the remainder to the hard ball or brittle stage. Stirring beat the two egg whites and gradually pour over them the first half cup of syrup, beating constantly. Then, add the remainder of the syrup; add the nuts and vanilla, and continue beating until thick and creamy. Pour on buttered sheet and cut before it hardens.

Women Executives

Many Hold High Positions On Railroads In United States

Miss Ellen Raymond is assistant general freight and passenger agent of the Green Bay and Western Railway; Miss Frances Dorothy Allen is Interior Decorator for the New York Central lines; Miss Pearl Andrews is in charge of cookery on the New Haven dining cars; Dr. Catherine Lankford is surgeon for the Pennsylvania; Miss Duryell Heckman is counsel for the Baltimore and Ohio, which also boasts half a dozen lady passenger representatives, and there are a number of other women holding executive positions on railroads in the United States, says the Canadian National Railways Magazine.

Gold Production

In the first eight months of this year Canada's gold production amounted to 2,097 ounces while the output in August set a new high monthly record when 294,861 ounces were produced. During September Manitoba and Saskatchewan mines accounted for an output of 13,583 ounces.

In old Italian paintings of the Madonna there is sometimes detected a tiny hole in the face explained by the fact that the artist pivoted his compass there in swinging the circle for the halo.

If You Eat Starches Meats, Sweets Read This

They're All Necessary Foods
— But All Acid-Forming.
Hence Most of Us Have "Acid Stomach." At Times. Easy Now to Relieve.

Doctors say that much of the so-called "indigestion," from which so many of us suffer, is really acid indigestion... brought about by too many acid-forming foods in our modern diet. And that there is now a way to relieve this... often in minutes!

Simply take Phillips' Milk of Magnesia after meals. Almost immediately this acts to neutralize the stomach acidity that brings on your trouble. You "forget you have a stomach."

Try this just once! Take either the familiar liquid "PHILLIPS" or, now the convenient new Phillips' Milk of Magnesia Tablets. But be sure you get Genuine "PHILLIPS".

Also in Tablet Form:
Phillips' Milk of Magnesia Tablets are now on the market, strong stores everywhere. Each tablet is the equivalent of a teaspoonful of the liquid form.

PHILLIPS'
Milk of Magnesia

MADE IN CANADA

Gold Production In B.C.

Is Expected To Reach Value Of \$5,000,000 For Year

British Columbia metals and minerals have added \$17,000,000 to the annual value of production in the last three years, are expected to exceed \$45,000,000 this year, compared with little more than \$28,000,000 in 1932, or a gain of some 62 per cent.

This is conceded by British Columbia mines officials, who added \$1,000,000 to all previous estimates, due to record gold recoveries in the first nine months of the current year.

British Columbia gold production is now running at the rate of \$1,000,000 a month, with not less than \$12,000,000 in Canadian funds as the expected total for the year.

That compares with gold production which brought producers on B.C. properties, but \$3,250,000 in 1929, and marks the greatest single change in the mining industry within the province.

Giant Globe In Moscow

Shows In Relief Many Features In Various Countries

A giant revolving globe, fifteen feet in diameter, is being erected by the Atlas Institute in the Central Park of Culture and Rest at Moscow. It will show, in relief, all the frontiers, railways, waterways and airways of the various countries. The globe will be illuminated inside by means of electric lamps and from the outside by projectors. It will revolve slowly on its axis, making 36 revolutions an hour.

SUNDAY SCHOOL LESSON DECEMBER 1

EXRA'S MISSION TO JERUSALEM

Golden text: The hand of our God is upon all them that seek him, for good. Ezra 8:22.

Lesson: Ezra 7:1 to 8:36.

Devotional reading: Psalm 63:1-8.

Explanations And Comments

Ezra Comes to Jerusalem, Ezra 7: 6-10. Ezra was a learned priest and scribe among the exiles in Babylon. As "a ready scribe in the law of Moses" he was not only studied the law but copied it and interpreted it. He sought permission of Artaxerxes, the Persian king, to lead to Jerusalem a large company of exiles. His request was readily granted, thanks to the favor of the Eternal his God (Moses' translation). With the company were priests, scribes and singers for the temple service, porters to keep the temple gates (1 Ch. 9:17), and Nethinim, attendants for the temple (1 Ch. 9:2).

They left Babylon the first day of the first month (Nisan, corresponding to March-April) of the seventh year of King Artaxerxes' reign, and reached Jerusalem on the first day of the fifth month (Ab, corresponding to July-August), after a journey of nearly four months.

Ezra had set his heart upon teaching in Israel the statutes and ordinances. As for himself, he had set his heart upon seeking to know the law of Jehovah, and what, and more, of doing it.

Between the knowing what should be done and the doing of it there is, alas! too often a gulf never bridged. In the words of Horace Bushnell, "Do the good you meditate, or if you never find the time for doing it, have the frankness to confess that your good intentions are hollow and worthless."

Letter of Artaxerxes, King of Persia, with its instructions about beautifying the Temple, Ezra 7:11-28. Artaxerxes not only granted Ezra's request, but he gave him much gold and silver for the temple, and also a letter in which he directed his officers in Judah to do whatever Ezra might ask. "Blessed be Jehovah, the God of our fathers," exclaimed Ezra, "who hath put such a thing as this in the king's heart, to beautify the house of Jehovah; and hath extended his lovingkindness to me."

Gifts for the Temple Weighed, Ezra 8:24-30. The treasures of gold and silver and sacred vessels which the king and counsellors and the

STOP BEING A BURDEN to yourself

The \$1.50 size is nearly four times the 50c size and the \$1.00 size is twice the 50c size.

Israelites had given for the temple. Ezra had weighed and counted and given into the charge of 12 priests and 10 Levites, making them responsible for their safe-keeping until the treasure could be again weighed and counted before witnesses in the chambers of the temple—the store rooms around the outer walls of the court of the temple.

On the Way to Jerusalem and the Arrival, Ezra 8:31-36. The river Ahava was left on the twelfth of the first month, and Jerusalem was reached on the first day of the fifth month. God delivered them "from the hand of the enemy and the let-in-wait by the way." After resting three days, the treasure was weighed in the temple, and burnt-offerings were offered.

Shoe manufacturing was introduced into America in 1629 by Thomas Bearg, who brought hides over on the Mayflower.

A Popular Quilt Because It's Easy

PATTERN 5009

Grandmother's Fan—the very name suggests romance and olden times. This quilt design—an heirloom from the quiltmaker of long ago—has all the charm the name calls to mind. It's made of scraps—oh, lots of them—each fan a more colorful block than the last. Your quilt will be as economical as it is beautiful, for odds and ends of left-over materials from your favorite dresses are all you'll need.

In pattern 5009 you will find the Block Chart, an illustration for cutting, sewing and finishing, together with yardage chart, diagram of quilt to help arrange the blocks for single and double bed size, and a diagram of block which serves as a guide for placing the patches and suggests contrasting materials.

To obtain this pattern send 20 cents in stamps or coin (preferred) to Household Arts Dept., Winnipeg Newspaper Union, 175 McDermott Ave., E., Winnipeg.

There is no Alice Brooks pattern book published

Warehouses At Calgary, Edmonton, Regina and Winnipeg

ITALY PLANNING FOOD SUPPLY TO MEET SANCTIONS

Rome.—Premier Mussolini satisfied himself that Italy can feed herself regardless of the economic siege laid down by League of Nations countries opposing his war in Ethiopia.

He approved regulations to limit certain crops whose exportation has been halted by sanctions and to grow others which formerly came from sanctionist countries. The plans affect every one of Italy's 3,646,000 farms.

Details of the program were carefully withheld.

The farm plans were made at a secret meeting at which three big objectives were outlined:

First, to maintain, and increase, where necessary, production of food-stuffs and fodder.

Second, to increase immediately production of certain things made by Italian industry in the manufacture of substitutes for articles formerly imported.

Third, to limit certain products, some of which have been exported in the past, and devote the land thus released to crops for home consumption.

Geneva.—Ethiopia served notice on the League of Nations she will make no peace that would permit Italy "to reap the reward of its crime."

Answering Italy's Nov. 11 note to the powers, an Ethiopian note flatly refused to entertain any proposal for settlement of the war that might be based on territorial gains by the Fascist armies.

The protest accused Italy of unjustified aggression perpetrated under the most unfair conditions, "military barbarity and oppression and attempts to buy traitors for cash, and charged the invading armies have bombarded defenceless towns, killing women and children.

Italy's northern African army stiffened its defences for an anticipated counter-attack. Officers said thousands of Ethiopians were massing in southern Tigre province and that one column even was marching on Selciet, only eight miles south of Makale.

Reports of decisive Ethiopian victories—but at the cost of hundreds of casualties—reached Addis Ababa from the southern front, where Emperor Haile Selassie encouraged his defenders in the fight. In one engagement, south of San Banch along the River Fafan, the casualties were said to number more than 150 Italian Somali dead and wounded and more than 300 Ethiopians.

New Era For Farmers

Speaker Visualizes Better Days For Agriculture

Toronto.—Canada is beginning five or ten years of the greatest progress its agricultural industry has ever seen, declared Hon. Duncan Marshall, Ontario minister of agriculture, speaking to representative farmers and stock raisers from every province, together with prominent guests from the United States and overseas, at the annual dinner of the Royal Agricultural Winter Fair.

"One-third of the wealth of Canada is in the hands of the agricultural interests of the country," said Mr. Marshall. "The men and women behind this great industry have had their hard times, they have been through the lean years of depression. But a new day is dawning for the farmer. Canada is coming into its own as one of the greatest agricultural nations of the world."

Joins Royal Air Force

Only Boy Accepted From Saskatchewan Is 16 Years Old

Unity, Sask.—John Aedy, a 16-year-old boy who has the distinction of being the only boy in Saskatchewan to be accepted as a cadet in the Royal Air Force is en route for England, where he will attend the R.A.F. school for three years. He is a son of Capt. Aedy, M.C., of Revenue district, and was educated at a country school. The examination set by the air ministry is considered to be exceptionally difficult for a boy of his years.

War Flyer Under Arrest

German Alleged To Have Spied On British Airport

London.—Dr. Hermann Gortz, German war flyer, was under arrest charged with contravention of the official secrets act and a war office statement indicated another person was sought on a similar charge.

The war office communique said: "The charges against Dr. Gortz are that at Paris Broadstairs and St. Peter's between Sept. 18 and Oct. 23, 1935, he acted in contravention of the Official Secrets Act and that between Sept. 18 and October 24 at Broadstairs he conspired with another person not in custody to commit offences against the same act."

Dr. Gortz was arrested at Harwich on Nov. 8 and held in Brixton jail following preliminary question at Margate. He was alleged to have spied on the Manston airport near Broadstairs.

The Daily Sketch said his arrest was a sensational development. It stated there was an allegation that Gortz had documents contrary to the Official Secrets Act.

The newspaper said a beautiful golden-haired young woman sometimes accompanied him on his frequent trips to England. The girl, understood to be his daughter or his niece, returned to Germany this fall, it was stated.

New Zealand Trade Pact

Will Encourage Shipment Of Cars From Canada

Ottawa.—With extensive revision of duties on Canadian motor vehicles, including parts, the Canada-New Zealand trade pact expiring next Nov. 24 has been renewed to July 31, 1936. Hon. W. D. Euler, minister of trade and commerce, announced.

The new rates will only become effective next May 1, while further trade negotiations will be carried on between the two countries.

The changes in the New Zealand tariff were made at the request of that country in order to encourage the importation into New Zealand of unasssembled cars that the assembling might be done there.

Canadian exports to New Zealand have been increasing steadily from \$3,608,500 in the year 1932 to 1933 to \$7,344,785 in the year 1934 to 1935. In the last eight months alone, exports to New Zealand reached a total of \$4,336,593—an increase of \$400,000 from the corresponding six months of the previous year. The chief item of export was automobiles and parts exceeding \$1,000,000.

Imports from New Zealand have also been increasing steadily. In the year 1932 to 1933, the amount was \$969,704. This increased in the year 1934 to 1935 to \$2,034,678.

British Naval Hero

Death Comes To Lord Jellicoe In His 76th Year

London.—Lord Jellicoe, outstanding British naval figure in the Great War, died Nov. 20. Death came to the admiral in his 76th year. He was born Dec. 5, 1859. Lord Jellicoe rose to his greatest fame as commander of the grand fleet at the battle of Jutland in 1916.

The immediate cause of Lord Jellicoe's death was illness contracted Nov. 11 during the Armistice Day ceremony at the cenotaph. All the members of his family, including his wife, were at his bedside when he died in his home in the Kensington district of London.

Shepherd From Prairies

Sheep-Dog Skill Is Shown At Royal Winter Fair

Toronto.—A shepherd from the prairies brought down the house at the opening of the Royal Winter Fair.

The crowded Coliseum at the Canadian National Exhibition ground cheered to the echo the display of sheep-dog skill and intelligence given by William H. Martin of Maple Creek, Sask.

The three dogs rounded up sheep and geese, guided by low commands and a faint "hiss" from the shepherd.

A. BEVERLEY BAXTER

Canadian and former editor of the London Daily Express, who wins seat in British elections.

Montreal Rioting

Exciting Time At Opening Of Election Campaign

Montreal.—Ripe tomatoes and frozen potatoes were hurled through the windows and into St. James market at the first meeting of the Quebec election campaign to be held in Montreal by Premier Taschereau.

By actual count 21 windows were smashed while 15 others were struck by the vegetables thrown by members of a crowd which formed a solid core around the outside of the building. Seventeen men were arrested and lodged in the cells.

Most of the missiles were fired at the beginning of the meeting during the speeches of Hon. Irene Vauvrie, minister of colonization, and Premier Taschereau. While Hon. Fernand Rivest, secretary of state, delivered his half-hour speech there was only one break. By that time the crowd outside had been largely dispersed.

A chorus of boos also coming from outside of the hall greeted many remarks of the first two speakers. Provincial police inside the hall joined municipal constables outside and cleared the market place of those who failed to give good reason for being there.

In the middle of his speech Premier Taschereau was interrupted by a particularly loud window breaking. "That's all our opponents are good for," he commented—"destruction, nothing constructive."

While there were a few catcalls from inside the hall, it was from the outside the demonstrators led the trouble. Loud-speakers carried the speeches outside the hall and choruses of "invektive," "boos" and catcalls punctuated the oratory from within.

Even when the barrage of tomatoes and potatoes was at its height, Premier Taschereau broke into a wide smile when a woman in the audience shouted, "It's too bad we don't have the vote. We'd show those gangsters what we think of their methods."

Of the 17 arrested four were released on bail of \$10 while 13 were placed in cells over night. All were booked on charges of disturbing the peace.

MAKE UNUSUAL MOVES ON POLITICAL CHESSBOARD

Fate was kind to one former British Labor Cabinet Minister when it allowed him to regain his seat in the House of Commons, but it dealt a totally opposite blow to his former cabinet colleague. Left is former Premier Ramsay MacDonald, who went down to defeat in the General Election, while, right, is the Right Hon. A. V. Alexander, former fellow cabinet minister of Ramsay MacDonald's who regained the seat he lost in 1931.

Alberta's Finances

New Government Is Working On The Problem

Edmonton.—Addressing the 27th annual convention of Alberta Association of Municipal Districts here, Hon. Charles Cockcroft, minister of municipal affairs, stated that the actual deficit of the province for the fiscal year ending March 31, 1936, "will be something over \$9,000,000."

"By March 31, 1936, we will have an apparent deficit of \$4,500,000 but that does not include direct or agricultural relief charges" the minister explained in stating problems facing the government.

After stating the estimated deficit for the fiscal year the speaker declared: "I am giving this information so you can see something has got to be done."

The government had obtained the services of R. J. Magor to study a means of decreasing expenditures and increasing revenues without harmful effects, he continued.

"I am pleased to say that after discussing this matter with Mr. Magor we have come to the conclusion that something might be done to correct the ills in the provinces at the present time," the minister stated.

"It must be obvious to all we would have to increase taxes in order to balance the budget."

The first question was that of refunding debts and in this connection "our information is most encouraging," he said. "We expect to return to the province with encouraging news—encouraging not only to the government but to the cities concerned."

Regarding refunding the minister said: "The element of sanctity of contracts comes in but I am convinced in my own mind that a bond can have no greater value than the market value of money." Loans being offered as low as one per cent, to-day, he said.

Captures Wheat Prize

Royal Winter Fair Award Goes To Alberta Farmer

Toronto.—Howard P. Wright of Aldridge, Alta., won the first major championship in the grain and seed classes of the Royal Winter fair here. His sample of hard red spring wheat was adjudged the best in the show. An Ontario grower, Roy C. Chambers of Fenwick, showed the best wheat other than hard red, and may be Wright's chief opponent when the judges decide the grand wheat champions of the fair. Other placings in the wheat classes were not announced with division champions.

H. G. Neufeld of Codelle, Sask., captured the oats championship. The championship for peas travelled to British Columbia, winner being B. Young of Kootenai, B.C.

First place in the flax division was captured by William Schwelb of Carleton Place, Ont., and second by John Hamilton of Caledonia, Alta., captured first place with his exhibit of field beans, other than small white, in the grain and seed judging. The Alberta department of agriculture at Brooks, Alta., won second prize in the small white beans competition.

TURNER VALLEY OIL FIELDS MAY BE DEVELOPED

Ottawa.—Prospects of a much more intensive development in the Turner Valley oil field in Alberta are being studied by the British American Oil Company, H. H. Bronston, controller of the company, told the tariff board.

He said his company was studying a process for the production of a third grade of commercial gasoline from Turner Valley naphtha which, if successful, might result in the closing of British America's refinery at Coutts, Alta., and withdrawal by the company from the Cutbank oil fields in Montana.

At present the company produces crude oil from its properties at Cutbank and pipes it to its refinery at Coutts to supply its customers in western Canada. Mr. Bronston said his company was now interested in Turner Valley in a small way and there was a possibility this interest might develop along lines which would make the importation of crude oil from Montana unnecessary. He declined to give details of the scheme when pressed by J. J. Frawley of the Alberta attorney-general's department.

The tariff board's hearing into an application from Saskatchewan cooperative associations for removal of the present gasoline duty continued with presentation of a brief on behalf of British American Oil. Mr. Bronston was questioned after the brief had been submitted.

Mr. Frawley asked the oil company official why his company needed the duty in-so-far as its Alberta business was concerned. His reply was to outline the prospective development.

The Alberta government representative said this proposal was a complete surprise to him and the company should supply more details. At present Alberta was opposed to continuance of tariff protection on gasoline but, if that province, with Saskatchewan and part of British Columbia, could be supplied with gasoline by a development at Turner Valley the province might take a different stand.

Mr. Bronston said he was willing to lay all the facts at his disposal before the tariff board and counsel for Alberta and was satisfied they would substantiate his statement. He objected, however, to disclosing them before a public hearing of the board.

Duke's Son Christened

King And Queen Godparents For Prince Edward Of Kent

London.—The first-born son of the Duke and Duchess of Kent was christened Prince Edward George Nicholas Paul Patrick in the private chapel of Buckingham Palace, in the presence of his grandparents, the king and queen.

The ceremony was performed by the Archbishop of Canterbury, using River of Jordan water dipped from the same golden font from which the infant's great-grandfather, King Edward VII, was christened.

Seventh in line of succession to the throne, the king's young grandson will be known generally as "Prince Edward of Kent."

His godparents were the king and queen, the Prince of Wales, Prince Nicholas of Greece—his maternal grandfather—and the Duke of Connaught, who was represented at the ceremony by Prince Arthur of Connaught.

Women As 'Plane Pilots

Not Generally A Success Opinion Of Flying Instructor

Toronto.—The average woman makes a poor plane pilot in the opinion of Ken Main, chief instructor at the Toronto Flying Club. He admits Amelia Earhart, Ruth Nichols and Amy Molson are exceptions to the rule.

"The biggest fault of women pilots," said Main, "is their poor judgment of speed and distance. If you don't believe this, just ask a woman to estimate the speed of a passing auto or to measure by eye the distance to a distant object. You'll find it impossible."

BUTTER AND EGGS WANTED at The Royal Cafe.

Geo. McMillan Wins His Case

The Supreme Court of Canada Friday gave judgment in Ottawa allowing the appeal of Geo McMillan of Edmonton, from a decision of the Alberta appeal court which awarded Mrs A Murray, of Edmonton, \$2553 and costs for injuries received in an auto accident. Friday's judgment restores a decision of the trial judge, Mr Justice Ford of the Alberta Supreme Court. Action arose from an accident which occurred in Edmonton. Leaving the sidewalk to go around an obstruction, Mrs Murray stepped on the road and was hit by McMillan's auto. McMillan alleged at the time he was passing another car whose lights "played a trick on my eyes and when I got past the glare I saw a woman" apparently too late to avoid running into her. Whether he actually struck Mrs Murray or whether she slipped and fell was not clear in the evidence. Justice Ford thought McMillan had discharged the legal duty to show he was not guilty of negligence and dismissed Mrs Murray's action.

Inga Tax Collections.

Reeve B C Howat of Inga M.D. was in attendance, on Saturday last in Stony Plain, when Secretary Best was collecting taxes from Inga farmers. A goodly number of ratepayers presented themselves, and a substantial sum of money was collected.

A meeting of Inga Councillors is killed to be held on or about Dec. 10th.

Another date has been set for Secretary Best to be in Stony Plain for tax collection purposes, to accommodate those who wish to pay up before the penalty imposed at the end of December hits them. These dates are—

Dec. 7—Royal Hotel, at Stony Plain.
Dec. 12—Carvel.

GRAIN MEN FIDDLE WHILE THE FARMERS BURN!

A writer in The Edmonton Journal signing himself "The Farmer Pays," says: "About a year ago farmers were advised, by all and sundry to grow less wheat and raise more oats and barley. The reason offered was that the carryover was small and the visible supply very low. Today the carryover is still smaller and the visible supply lower. Wheat is pegged for the grower; but coarse grains are left to shift for themselves. The average price at country points for oats this fall was 20c a bu. for 2 C. W. down to 5 1-2c for 3 feed. Threshing 100 bushels per hours at \$6, 28-inch separator, a farmer lost a-half cent per bu. on 3 feed, to say nothing of other expenses. Damp was 4c under straight, putting in the hole all told 4 1-2c on every bushel sold. The Thresherman had to pay his crew and oil bills, so the farmer had to sell his crop. Barley fared even worse, 3 C.W. at 16c per bu, or one-third of a cent per pound. Lower grades were a joke.

"The excuse offered for this was slow export movement. But, take notice, The Weekly Market News, Nov. 7, page 2, states in part: "Exporters claim there is a good potential foreign demand for oats and barley, but that it is difficult to get necessary supplies in required position."

"Why the difficulty? Is it due to indifference to the long-suffering farmers' interest, or to the all-round inefficiency and incompetence of our terminal grain elevator system? The grain men fiddle while the farmers burn!

"Why was the grain left piled up at the head of the lakes instead of being moved to the seaboard in readiness for export? Why didn't our Provincial Minister of Agriculture get after it?

Don't Guess But Know

Whether the "Pain" Remedy You Use is SAFE?

Don't Entrust Your Own or Your Family's Well-Being to Unknown Preparations

THE person to ask whether the preparation you or your family are taking for the relief of headaches is SAFE to use regularly is your family doctor. Ask him particularly about "ASPIRIN."

He will tell you that before the discovery of "Aspirin" most "pain" remedies were advised against by physicians as bad for the stomach and, often, for the heart. Which is food for thought if you seek quick, safe relief.

Scientists rate "Aspirin" among the fastest methods yet discovered for the relief of headaches and the pains of rheumatism, neuritis and neuralgia. And the experience of millions of users has proved it safe for the average person to use regularly. In your own interest remember this:

"Aspirin" Tablets are made in Canada. "Aspirin" is the registered trade-mark of the Bayer Company, Limited. Look for the name Bayer in the form of a cross on every tablet.

CHAPTER XXIV.—Continued

The girl spoke softly, her dimple showing for a moment; but to her surprise Jack answered in all seriousness: "After what you did during the blitzard? You know better, sis. But Matt's different from some boys, and I wouldn't like to think you'd hurt him."

Said Nancy, endeavoring to make her voice sound light: "You take it like Aunt Judy! She imagines that every boy who looks my way has lost his heart!"

"Well," observed Jack, "most any one would think that Matt had; but I never saw him act so happy and keyed up as he did the evening—and last night too. Say! will you ever forget how excited Mr. Adam was over your finding that crucifix? I think they're the finest family I ever knew. Nance. So enthusiastic, all of 'em. Do you suppose Dad's Mother'll let me come back next winter? With Mark in California studying forestry they'll be sort of help here at the ranch; and gee! I'd like it more'n anything!"

"I'll say a good word for you," promised his sister; and then: "Get back to bed, Jack. We must be up in good season, and it's long past midnight."

Despite her wakefulness, Nancy was up early next morning, though not so early as Matthew Adam, who had, according to Aurora, delivered milk at the Tubbs before she was out of bed.

"His spooks through the window," she related, "and almost frightened Victor into a collapse. He said I was to tell Jack to be ready to ride down on the truck along with the trunk, and Mark and Luke and John (young John, I mean) and Mary Taylor and Juanita. I told him it would look like a straw ride, but he said, 'Who cares?' I'll have to admit that for a fellow two thousand miles away where he'll never lay eyes on her again, Matthew Adam looked pretty well resigned. And not more'n three days ago he resembled a man just comin' from the cemetery after buryin' his last relation. He's to drive the Ford with his father and mother and Miss Columbine and you, Nancy. I declare, if I wasn't quite so fleshy I'd squeeze in between on the front seat and go too."

"Why not go down on the truck?" suggested Miss Columbine, emerging from her bedroom.

"Among all them trunks and young folks and milk cans?" retorted the good woman. "No thank you, Miss Columbine, I have my pride, and there's house cleanin' to do even if you are going home with Eve Adam for over Sunday. I must say it was real considerate of Eve to ask you for this house'll seem about as cheerful as the tomb till we get used to it. Well" (she sighed mournfully), "last breakfast is ready, and you'd better eat if you've any appetites, which I haven't myself. A cup of coffee and four doughnuts was all I could get down this mornin'. I've took the liberty of inviting Victor Tubbs to dinner, Miss Columbine. I need food, and goodness knows I couldn't eat a bite if I was to be here alone."

The truck was gone at last, leaving Aurora flattered and rosy at Jack's farewell kiss.

"It's just as well," she said, waving her apron as a last salute, "that Victor wasn't here to see. He's still jealous. Nancy, after more than 20 years of married life; and though Jack didn't mean nothin' in the world by kissin' me good-bye, Victor Tubbs might have misunderstood."

"Which proves that there's no fool like an old fool," declared Miss Columbine tartly. "Here comes the Ford, Aurora. I'd rather have Mark Adam drive us down the pass, but no doct! Matt's will be careful with his load of old folks. Where are you going, Nancy? I thought everything had been brought down."

"I must have one last look at the view from my tower," the girl rejoined, laughing; but once in the familiar room she tip-toed to a carefully closed closet and drew forth something she had hidden.

"Will you send Matt up to get my suitcase, Aurora?" she called with charming innocence from the head of the steep stairs. "Those stupid boys have overlooked it."

The last ride down the historic pass was over. The station came into view, with an impatient "delegation," as Jack called it, on the platform.

All too soon a gigantic engine roared past the waiting crowd, and slowly stopped; while, dazed and breathless, Nance found herself mounting steps into the Pullman, a dusky porter armed with luggage leading her on, and Jack behind, stopping to call something to somebody.

"Section eight. This way, lady."

From her window Nance looked out upon a sort of composite picture of that friendly gathering. Then, as the wheels turned, she caught the glimpse her eyes were seeking: Cousin Columbine in her scarlet midday, with Matt close by, bareheaded as she had seen him first—his hand slipped through the old lady's arm protectively.

Dear Matt! She'd forgotten to tell him to look out for Cousin Columbine, but he knew. Something tightened in Nance's throat. The landscape blurred. Then Jack was saying: "Thank heaven, that's over. I never felt so—so conspicuous in my life. Did you kiss every member of the Adam family? I don't but I did! I'm sure I kissed Juanita Tubbs—by mistake, of course. And I believe I

must have kissed Cousin Columbine three times! Isn't she the dandiest old sport, Nance? Kept a stiff upper lip right to the last minute, but I miss my guess if she didn't want to bawl. Made me feel bad just to look at her. But some one will understand and cheer her up, sis. Of course somebody will!"

Jack was right. As the wheels moved faster and Miss Columbine's steady lip began to tremble, a firm young hand drew her away, back from the crowd that still stared, stupidly, it seemed, at the departing train.

"Listen," said Matthew. "I'll listen, Miss Columbine. It's not quite so awful as it seems, having her go. I promised not to tell even Mother till—till Nancy got home and could tell her; but she left a note for you in—in case you seemed too lonely;—anyway, I'll probably explode if I don't tell some one, so—so you see."

This was the old, shy Matthew, hesitating as if there were no words with which to say this thing; but as she glanced up, puzzled, Columbine Nelson surprised a light upon his face that startled her.

"What are you trying to tell me, Matthew Adam?" she demanded brusquely. "Stop stammering over your words like that. I'm not a stranger. Don't keep me on tenter hooks a minute longer or I'll do the exploding. What are you trying to say?"

And at the reappearance of her own brisk self, Matt laughed, while in the face and eyes of an astonished baggage-man, he caught the oddly-attired lady in a bear-like hug.

"Only that Nance is coming back," he told her joyously. "And—next time, Miss Columbine, she'll come to stay!"

The End.

A NEW SERIAL STORY

Arrangements have been completed for presenting to our readers a new serial entitled "Phenomenal Doll Sales," by the well-known writer, Lawrence A. Keating. This is an absorbing and exciting story of the western plains, and those who follow the intonations as they appear each week will be thrilled by the intensive situations. This story will be commenced in an early issue. Be sure that you do not miss the opening chapters.

IN NEXT ISSUE

International Language

Weather Men Adopt Program Unifying Means of Exchanging Reports

An international language for the weather, made up of signs and figures instead of words, so as to avoid the confusion of varied national languages, is to become uniform for the world's weather man, W. R. Gregg, chief of the United States Weather Bureau, asserted recently.

Returning from Warsaw, he reported that the International Meteorological Organization at its eighth meeting there, with representatives of 42 countries present, adopted a program for unification of codes, symbols and units in the exchange of weather reports.

The maps on which daily weather forecasts are based will look alike the world over. A black dot will mean light rain or drizzle, a star will mean light snow, and a plain circle will mean clear, cloudless skies. On every weather map, whether the observers supplying data for it speak English, French, Russian, Chinese, Arabic or any other language.

Phenomenal Doll Sales

Publicity Was Large Factor in The Success Of These Toys

Dolls have been the outstanding best sellers in the toy sections of departmental stores in the United States this year, according to national survey reports of toy world. Shirley Temple dolls, Diana quintuplets and fairy princess dolls, the latter prompted by Colleen Moore's fairy doll house now touring the country, have won first place in over-the-counter sales.

Needless to say, the newspaper, movie and magazine publicity has been a big factor in the success of these toys. As a result of this year's phenomenal doll sales, the stores also report a fine demand for doll clothes and accessories.

Velocipedes and bicycles held a firm place during the summer months and are expected to maintain a strong position with Santa Claus this Christmas.

The four best selling games of the past month, according to the survey, were "Monopoly," "Finance," "Banded Parcheesi" and "Badminton," all made by different manufacturers.

Old Chief Enters Movies

Aged Indian Dresses In Ceremonial Costume And Dances San Dance

Chief David, 109-year-old Spanish Indian of Vancouver Island, danced his way into the movies recently. When cameramen making a picture there inquired for someone who could interpret the ancient dances of the tribe, this grizzled old chief put on his ceremonial headdress and granted his readiness to begin.

He went through the difficult movements of the dance without faltering. Then he told about his boyhood—how he had watched his tribesmen attack old Fort Victoria back in 1848.

High Grade Barley

About 500,000 bushels of high grade barley have been placed in storage at Calgary by a milling company. Another million bushels are now being collected. Much of the present storage stock has been secured from growers who utilized special seed put out by the company in the spring.

One Chinese army compels its soldiers to be thrifty. Ten per cent. of the rate pay must be saved monthly, and none is exempt.

The Australian government will send a trade delegation to India.

Little Helps For This Week

For I reckon the sufferings of this present time are not worthy to be compared with the glory that shall be revealed in us. Romans 8:18.

Believest thou in eternal things? Thou knowest in thy inmost heart that art not clay, thy soul hath wings

And what thou seest is but part.

Every contradiction of our will, every little ailment, every petty disappointment, will if we take it patiently become a blessing. So, walking on earth we may be in heaven; the ill-temper of others, the slights of the world, the daily accidents with which God hath mercifully strewn our path, instead of ruffling or disturbing our peace may cause His peace to be shed abroad in our hearts abundantly.

Instant Relief From ITCHING

Are you tormented with the itching tortures of eruptions, eczema, scales, rashes or other skin afflictions? For quick and happy relief use Dr. D. D. Prescription. Its gentle oils soothe the irritated and inflamed skin, thus relieving nature's lead to heal the disorder. No fuss—no mess. Clear, greaseless and stainless—dries up almost immediately. Stops the most intense itching instantly. A 50c trial bottle, at drug stores, will prove it—or money back. Dr. D. D. Prescription is made by the owners of ITALIAN RIALM.

Substitutes For Food

People In Hungary Are Buying Foxes And Crows

At the market at Keesenket (Hungary) crows are on sale, where they are fetching as much as three cents each. They are bought by the poor who make them into a form of "chicken broth." Foxes are also being sold by the farmers at a shilling a head. Never since the war have the hungry citizens of this wealthy district been forced by hard times to resort to such substitutes for food.

DOCTORING YOUR DAIRY HERD

Cows aren't machines. They can get sick or hurt. But Minard's Liniment makes it easy to care for their ills. Mrs. Theo. Bulmer of Lardo, B.C., found one of her herd with a lump in her udder. "I rubbed it with Minard's Liniment," she says, "and it soon got better. Minard's is best for Cuts, Bruises, Colic, Diarrhea, etc., and equally good in stable or in house. Well named 'King of Pain'."

Secrecy to Help Premier King

If Premier King proceeds with the proposals of reform set out in his speech of October 14, he will have the support of the social credit members of the House, J. H. Blackmore, M. P. for Lethbridge, newly elected Federal social credit leader, said on Friday. "Otherwise, we may oppose him," Mr. Blackmore stated. He announced that his party members would support "all progressive legislation for the benefit of the common man."

Shortage of Good Seed.

From a survey recently made, it has been estimated that the damage done by widespread August frost made certain the development of a serious seed situation in this province before next Spring. Since careful planning will be necessary to spread the good seed widely, otherwise many farmers are likely to sow some poor stuff. Only too many grain growers, however, are not in a position to obtain the quality of seed they would like to sow. An expert has stated that the seed situation in this province is the most serious of any period covering the past 25 years.

In Old Virginia.

Visitor—How far is it to Washington?
Native—We'll all, I don't rightly know, but I'll call Eph. Eph. will know. He's travelled all over. He's got shoes.

Weak with the Grippe.

Miss Anna Nepko, 10845 98th St., Edmonton, writes—
"I was so weak with the Grippe that it made me quite helpless. A friend told me to try Dr. Martin's Tonic Remedy. And it certainly got me on my feet, and built up my strength. That I wish to let everyone know of this Remedy. How quickly it acts and how reliable it is. Children will take it readily, no mixing or fussing. It contains no Laxatives or Narcotics. A quick acting tonic that builds up your vitality. Dr. Emilie Martin's valuable remedy for Coughs, Colds and the Grippe. Large bottle, price, 7c., at Hayes Drug Store, Stony Plain.

Highway Building to Stop.

(Edmonton Journal.)

Cessation of highway building programs in Alberta for the time being, with concentration on upkeep of roads already built, was announced by Hon. W. A. Fallow, Minister of Public Works, Railways and Telephones, in an address before the Alberta Assoc. of Municipal Districts Friday in the Mcdonald.

The Minister was subjected to a barrage of questions following his address and once during his speech was interrupted. He had referred to the difficulties of maintaining the highways and roads "in our present financial situation" and had remarked "This money has to come from somewhere, but where?"

"Make it with a fountain pen," suggested someone in the audience.

"Order, please! Order!" chided Chairman Paul L. Farnalis.

Hon. Mr. Fallow continued without further interruptions.

Gov't Buys Seed Grain.

The scarcity in this province of seed oats and seed barley has resulted in a program of extensive purchases by the Provincial Government, to insure a supply for the 1936 crops, it was revealed by the Minister of Agriculture last week. The Government is aiming at arrangement of supplies for delivery in February and March, the best months to obtain supplies, the Minister said. With seed oats scarce, he said, germination of samples forwarded to the Dominion Seed Branch is low, except in those areas where good seed was produced. The supplies being purchased are being stored in Government terminal and country elevators.

George on a Strenuous Trip.

Messrs P. Hennig, R. S. Young and George Schadeck were delegates from Aspen Ridge Social Credit group to the convention held in Grande Prairie last week. George piloted his car on the strenuous trip, and although still on crutches, he is able to step on the gas.—Grande Prairie Tribune.

Canada To Have Streamline Locomotives

Marking the peak of engine development in the fifty years since the driving of the last spike at Craigellachie, the Canadian Pacific Railway has under construction five light-weight locomotives, which are being built to attain a speed of 110 miles per hour. Streamlining and an increased ratio of power to weight and fuel consumption are their outstanding characteristics. Many of the ideas incorporated in these engines are quite new, having been originated by Canadian Pacific engineers under the supervision of H. B. Bowen, Chief of Motive Power and Rolling Stock. In addition, the Company's engineers closely watched experi-

ments made by leading railways of other countries, and have adapted and developed the best features brought out. The new Canadian Pacific engines mark a long step forward in locomotive construction. The first five engines will be used to improve the Company's passenger service between Montreal and Quebec, and will haul at high speeds trains of new light-weight coaches now being built for the service. They are of 4-4-4 type, with a total engine and tender weight of 420,000 lbs., or about 33 per cent lighter than engines now running, and designed to do the same relative work. This means a consequent

important saving in fuel, water and maintenance. The boilers are of nickel steel designed to stand a pressure of 300 lbs. per square inch, and fittings and appliances are all of the latest type, including super-heaters, feed water heaters, mechanical stokers, roller bearings and tandem connecting rods. They are coal burning, the tenders having a capacity of twelve tons. The tractive effort will be 35,000 lbs., cylinders 16 1/2 by 28 inches; with the drivers having a diameter of 80 inches. Photographs of a model give a comprehensive idea of the new engines. They are H. B. Bowen, Chief of Motive Power, Canadian Pacific Railway.

Believe It Or Not.

Geo. Perceverziff made his start on a farm at Skiff some 17 years ago, with a bankroll of \$500 and 4 horses. He has just sold 15,000 acres of land, 1600 sheep, 100 cattle and 100 horses to the Milford Hutterite colony for the sum of \$185,000. That's pretty darn near being a "Master Farmer," isn't it? asks The Market Examiner.

Their Daddy was Proud.

This is the tale of the two persons who were having lunch at a farm during the progress of anniversary celebrations connected with the rural church. The farmer's wife cooked a couple of chickens, saying the family could dine on the remains after the preachers had gone. But the hungry parsons wolfed the chickens bare.

Later the farmer was conducting the guests around the farm, when an old rooster commenced to crow ad lib.

"He seems mighty proud of himself," said one of the guests.

"No wonder," growled the farmer. "He's got two sons in the ministry."

Russian Wheat Situation

Russia has been producing in recent years, on the average, about 850 million bushels of wheat per annum. This year it is said she has a bumper crop—some consider over 1,000 million bushels. Her population has greatly increased in the last ten years. The Soviet is now permitting the people to use more bread. Considering these factors, how much wheat will Russia have to spare for export to world's markets? Only time will show.
